

Dear Ladies & Gentlemen who are concerned to the sex slave propaganda:

It is quite risky to inform the fake propaganda to young students.

You need to evaluate the truth of comfort women issue first.

I know there live several tribes in California including China, Korea, Philippine, Japan and so on.

Basically most of your people are of Christianity. My son in Italy is of Catholic. I don't think those people try to disturb the human community with such a fake story.

I will send you some web-sites which discuss about comfort women issue.

Please do not change your beautiful California to a dirty morale and low civilized state.
